

Entrepreneurship Cells in Goa

A step towards creating young leaders and entrepreneurs

Entrepreneurship cells in Goa are operating in various college campuses in partnership with CIBA (Centre for Incubation and Business Acceleration). The aim of these entrepreneurship cells is to provide insight to students on entrepreneurship and promote the spirit of entrepreneurship among students throughout Goa.

As part of the e-cell programme, several workshops and seminars are regularly organized for students on topics such as

- Innovation and entrepreneurship,
- Startups,
- Emerging technologies,
- Intellectual property, etc.

The objective of these initiatives is to inculcate leadership and business acumen along with required technical skills among students to enable them to start their own ventures in the future.
