

Goa Open Innovation

Challenge 2025

Problem Statements

Department of ITE&C

Aspects	Details
Title	Youth Skilling & Job Matching Platform for Goa Design a platform that connects technically skilled Goan youth with upskilling programs, internship opportunities, and jobs, personalized to their interest areas and also keep a track of their career progression.
Desired Outcome	Unified digital platform mapping youth skills to real job and internship opportunities - Better career planning and access to upskilling resources - Accessing their career progress to showcase opportunities in Goa whenever required
Constraints	Data collection and privacy issues - platform adoption by youth and employers - Integration with existing skilling ecosystems
